WORK EXPERIENCE

2016 - Program Manager | Randstad Amsterdam, Netherlands.

Randstad has opted to go to the Amazon cloud for the infrastructure needs of all her 33 operating companies in countries worldwide. As program manager I have the following responsibilities :

- Setup up of the Program Management structure for all the projects in the USA, EMEA and Asia. Track the overall planning.
- Creation of management status reports for the Steering Committee .
- The development and monitoring of the initial practices, implementation processes and project team standards for the Program.

2011 - 2016 Program Manager | ABN AMRO 2006 - 2007 Amsterdam, Netherlands.

In the two periods indicated, in different roles as Project Manager and Test Manager, I have been responsible for managing the successful delivery (implemented and tested) of new computer systems in the areas:

- Asset Liability Management (ALM)
- Cost Accounting and Controlling (CAC)
- Quantitative Risk Management (QRM)
- Foreign Account Tax Compliance Act (FATCA)

2009 - 2011 Program Manager | KLM/AIR FRANCE Amsterdam, Netherlands; Paris, France.

Successfully managed the implementation of major enhancements and new functionality on key Information System components in the Aircraft Engineering and Maintenance division. Key projects included:

- The set up of KLM Miami (USA) Logistic Center. Full SAP - Crocos functionality in Miami warehouse.
- Enhancements to KLM AeroComponents (online market place for Aircraft components) functionality in AeroExchange.

2008 - 2008 Program Manager ICT | Container-Centralen Arnhem, Netherlands; Odense, Denmark

Representing the CIO, determined the ICT strategy and contracted third parties on the interface implementation with the CC ERP system, Loglink. Also managed the setup of IT development processes, deliverables and quality management system.

SPECIALIZATIONS

- ✓ Integrated Quality Management System (IQMS)
- ✓ Project Management Methodology (Prince2);
- ✓ Agile/Scrum Methodology;
- ✓ Business Development;
- ✓ Gen. AI Applications.

2001 - 2005 Sr. Softw. Architect | Ziggo (Cassema)
The Hague, Netherlands.

Ziggo is the largest TV (and one of the largest Telecom) providers in the Netherlands. As Sr. Project Manager and Architect I represented IT at board and senior technology levels to champion solutions architectures and ongoing alignment of business requirements, processes, services, and systems. Some key achievements included:

- Managed the successful implementation of ITIL processes.
- Introduced the Rational Unified Process (RUP) method .

1999 - 2001 Principal Consultant | CGI (AMS)

The Hague, Netherlands; Virginia, USA; Stockholm, Sweden

Roles and achievements as Principal Consultant:

- As Quality Manager, reduced major ISO Certification non-conformity count from 5 to zero for external BSI audit by creating, updating, and maintaining all ISO documentation (processes, SoPs etc).
- As Project Manager, managed major telecom accounts projects, such as AMS (now CGI) Billing Systems Maintenance for KPN (The Netherlands), Telia (Sweden), Telefonica (Spain) and Swisscom (Switzerland).

EDUCATION
